Reeves Announces Grand Opening of Walgreen Agency

Special Prices Are Featured for Today, Friday and Saturday

This morning marked the formal opening of the Reeves Drug store as a Walgreen Agency Drug store, one of nearly 2000 independently owned drug stores throughout the country which handle the products of the famous Walgreen Co. These stores offer services similar to those provided by the Walgreen Co. in their own 500 odd stores.

The contract with the Walgreen Co. of course does not involve Walgreen Co. ownership or operation in any way. G. E. Borovicka, the co-owner, has been in the drug business in Chicago and Winnetka for the past 15 years. Mrs. Borovicka has been active in the management of the store for quite some time, having worked for Mr. Reeves, the former owner. The Borovickas will continue to operate the store under the name of Reeves Drug store so as to preserve the tradition of this name that has been connected with the drug business in this location for 23 years.

Reeves, Permanent Resident
S. H. Reeves, who was the oldest man in active business in this locality until he sold the store to Mr. and Mrs. Borovicka and retired last February, will continue to live in his apartment above the drug store. He liked Antioch when he came here 23 years ago and he still likes it, he tells his many friends; and they, too, feel that he has earned a rest after his long and honorable business career in which he built up a splendid patronage for the store that is to continue to bear his name.

When interviewed, Mr. Borovicka said, "I am proud to present to the people of Antioch and vicinity this new (continued on page 4)

Swanson Chairman of Entertainment for Shrine Meet

Assistant Rabban Will Have Important Part in the Convention

Fred B. Swanson of Antioch, cinema theater impresario, is chairman of the entertainment committee for the 68th annual Imperial Council session of the Ancient Arabic Order of Nobles of the Mystic Shrine to be held from Monday through Wednesday next week (June 29 to July 1) at the Palmer house in Chicago.

Mr. Swanson, as Assistant Rabban of Medinah Temple, will have an important part in the conduct of the big Shriner's convention which will be held in Chicago for the first time since 1906. More than 2,500 delegates are expected from many sections of the United States, Canada, and the cities to Mexico and Honolulu.

"The session will be strictly business" with the parades that usually mark the annual assembly abandoned for the duration of the war," said Mr. Swanson. "Many social activities have been arranged, however, including receptions and banquets. There will be a pageant Tuesday evening, (June 30) at Medinah Temple, when more than 500 Nobles including the imperial officers will be on the stage at one time.

The program will include music by the Medinah Brass Band of 125 pieces and the Oriental Band of 60 pieces, choral numbers by the Chanters and exhibition drills by the Arabic Patrol. Other uniformed units to appear will be the Military Aides and Marshals. Governor Dwight H. Green and Mayor Edward J. Kelly will welcome the Shriners at the opening session Monday morning (June 29), following the presentation of flags accompanied by national airs of the 26 United Nations.

Mr. Swanson said that reports will be made at the annual session regarding the 15 Shriners' hospitals for Crippled Children in the United States, Canada and Hawaii. Two of the hospitals—in San Francisco and Honolulu—were turned over to the government when the Japanese attacked Pearl Harbor.

The Chicago unit, located at 2211 North Oak Park avenue, has bed capacity for 60 patients and operates a daily clinic.

"Shriners' hospitals are maintained as part of the annual dues of all members," said Mr. Swanson. "They are free to all crippled children whose parents or guardians are too poor to seek treatment elsewhere, regardless of creed or color."

YOUTHS 18 TO 20 REGISTER JUNE 30

Next Tuesday, June 30, is the day set for all men who are 18 or 19 years old, and those who have become 20 since December 31, 1941, to register for selective service. This is the first time in the history of the United States that minors have been required to register for service.

Antioch youth falling in this age bracket may register at the Zion Grade school, Grayslake Grade school; or at the Legion Home at 17th street and Park avenue, in North Chicago. The hours for the registration will be from 7 a. m. to 9 p. m.

Arrangements have been made for those who find it necessary to register in advance to be taken care of at the Legion Home in North Chicago from 9 a. m. to 6 p. m. on June 26, 27, or 29.

30 TONS SCRAP METAL COLLECTED BY SHEAHAN BROS.

Adds to National Total of 1,357,000 Tons Salvaged by Harvester Co.

Over 30 tons of scrap metal has been collected from farms around Antioch by the Sheahan Implement company according to announcement made today by Joe Sheahan, senior member of the firm. Most of the metal has already been delivered to large scrap metal collectors in Kenosha, Sheahan said.

The 30 tons collected here was a part of the total of 1,357,000 tons that has been collected from American farms, villages and towns through the scrap salvage campaign sponsored by the International Harvester company and carried out by its 8,500 farm implement dealers and hundreds of local co-operating groups.

This huge collection of scrap was the equivalent of 35,000 railroad carloads. Melted down and converted into ton into medium tanks, this amount of scrap would build 30,000 of these fighting monsters for the American and United Nations armed forces.

It would build 100 medium-sized cargo vessels to carry supplies to the armed forces abroad.

Converted ton for ton into half-track military vehicles, it would build 110,000 of these transport and fighting units.

Obtaining iron and steel scrap in sufficient quantities to keep the steel industry operating at capacity is one of the big problems of war production. The collection of farm scrap was the most difficult part of the scrap problem. It was known that large quantities of scrap were on American farms, but it had been difficult and costly to gather through the ordinary collection channels because it was remote and widely scattered.

Three months ago, the Harvester company offered to the materials conservation section of the War Production Board the facilities and personnel of its distribution organization in the United States to collect farm scrap metal.

The Harvester company will continue to collect farm scrap in the future, as in the past, working in the future under the joint auspices of the Farm Equipment Institute and the National Retail Farm Equipment association, which is sponsoring the job of farm scrap collection on an industry-wide basis under the Bureau of Conservation of the War Production Board.

Plan New Defense Units for Women

Mrs. Edward Weil, Mundelein, Ill., County Chairman for Women's Activities of the Lake County Council of Defense in co-operation with the township group leaders recently announced final organization plans for new units of interest to women.

Women are needed for membership in the Motor Corps, Nurses Aides and Youth Activities groups. Up to now, not a great deal could be done, because of a lack of training facilities. However, a training program has been provided and the courses are available.

By working with the Consumers Interest Division, headed by Mrs. James Pech, the women of Lake County will all be active in some form of defense work.

Dr. D. N. Deering and Ben R. Burke have returned from Pipestone Lake in Ontario, Canada, where they enjoyed ten days of good fishing.

Mrs. Effie Nelson, Mrs. Vera Renner, and Mrs. Hugh Hufendick and children spent Wednesday in Oak Park.

Important Farm Meetings to be Held Wednesday

Effect Complete Organization for Wartime Educational Program

Every farm family in every school district in Lake county is urged to attend the wartime Agricultural meeting in their own school district or in a neighboring school district, in case certain districts are being combined. These meetings will be held by a leader and co-leader who will be a man and a woman from each school district. These leaders will notify every farm family as to the place of the meetings, most of which will be held in schools in the district. All meetings will be held on the night of July 2nd, commencing at 8:00 p. m.

It is important that every farm family including the farmer and his wife, attend these meetings since much vital information will be given out and important subjects discussed. In case any family should fail to receive a notice, the leader or co-leader in the district should be consulted.

Although the meetings are particularly for farm families, others are invited. Subjects will be discussed and information given out that will be of vital interest to all.

The organization of the Wartime Agricultural program is made up of County, Township, and School district committees. The duties of the county committee includes the planning and outlining of the subject matter to be presented at the local meetings. Members of the township committees will assist the school district leaders and co-leaders in their respective townships for inviting every farm family to the meeting and for conducting the meeting. They will also report to the township chairman the number of families represented at the meeting, the number of families absent, if any, and the number of personal contacts made to families unable to attend the school district meetings. The township leaders will then report to the farm and home adviser the results for their township.

The complete organization of the county, townships and school districts is as follows. In a few cases the school district leaders have not at present been selected:

The Lake county committee for Wartime Educational Program follows:

Ray T. Nicholas, Grayslake, Lake County Farm Adviser.

Mrs. Helen Volk, Libertyville, Lake County Home Adviser.

Harry Matthews, McHenry, President Farm Bureau.

Mrs. Earl Barron, Grayslake, President Home Bureau.

James Davis Wauconda, Vocational Agriculture.

E. Harris, Grayslake, President Lotus Production-Credit Association.

C. A. Faulkner, Grange, AAA Chairman.

Mrs. Herman Stiehr, R. R. 11, Waukegan, AAA Fieldwoman.

Township Leaders

The leader in Antioch township is C. L. Kuttel, and Mrs. Kuttel is co-leader. Lake Villa—Leader Ben Snyder, co-leader, Mrs. Crenin. Grant township—Leader, H. C. Stroker, co-leader, Mrs. Stroker.

School district leaders in northwestern Lake county were announced as follows: Dist. 9 and 35—Mr. and Mrs. E. J. McDoughall; Dist. 17—Irving McAllister, Mrs. Emmet King; Dist. 24—J. G. Honner Mrs. B. Anderson; Dist. 27—Mr. and Mrs. H. A. Tillotson; Dist. 30—Mr. and Mrs. C. L. Kuttel; Dist. 31—A. G. Hughes, Mrs. Mary McCann; Dist. 32—C. O. Hunt, Mrs. Roy Crichton; Dist. 33—Peter Toft, Mrs. Jos. Rhymer; Dist. 35—Charles Paddock, Mrs. Josephine Herman.

Grace Eat Shop Opens Saturday

The Grace Eat Shop, formerly the Midget Eat shop at 879 Main street, will open for business this Saturday, according to announcement made today by Mr. and Mrs. Philip Fortin who have bought the business from Jacob Dron.

Dron is now engaged in defense construction work at Merrimac, Wis., and the Midget has been under the management of Mrs. Louise Sorenson. The place has been closed for several days during the work of redecorating. The Fortins who bought Mrs. Mortensen's restaurant in early spring this year, and which they are operating under the name of The Pantry, plan to keep the Grace Eat Shop open all right, and they will feature sandwiches and home-made pies. The home bakery goods will be supplied from the Pantry's bakery.

Legion Post Sets Festival Dates

Names Committee for Big 3-Day Event Starting July 17

The Antioch Post of the American Legion this week set the dates for the annual summer festival and named the committee that will direct the activities during the big three-day event. The dates are Friday, Saturday and Sunday, July 17, 18 and 19.

The committee is headed by Commander Roman Vos as general chairman, and his assistants will be C. L. Heath, Floyd Horton, Walter Hills and John Horan.

The festival will be held on the village lots next to the water works park, where rides, games and other amusements will be found in abundance. Due to wartime conditions when all local organizations are lending every aid to the country's defense effort, it is understood that the company operating the rides and other major concessions has made a very advantageous contract with the local Legion, so that much more than the usual percentage of profit will remain with the local post.

ANTIOCH APPROACHES GOAL IN U S O DRIVE; COLLECT \$463 IN 6 DAYS

Country Towns Expected to Report "Over the Top" Totals by July 4

Antioch township has collected over 77 per cent of its quota of \$600 in the United Service Organizations campaign, co-chairmen Mayor George B. Bartlett and Legion Commander Roman Vos reported today. To date \$463.75 has been collected and turned in, the chairman announced.

With four towns over the top and several others crowding the 90 per cent mark of their quotas the country towns' division on Monday was near the halfway mark toward the goal, according to Nicholas J. Conrad, general chairman.

Meanwhile the drive as a whole was steaming ahead toward the million dollar mark with a grand total to date of \$902,012. This is 51 per cent of the \$1,749,432 which is the Chicago district's share of a \$32,000,000 national goal.

In the local campaign Commander Vos was assisted by air raid wardens and their assistants outside the village, while solicitations in the village were under the direction of Mrs. Frank Harden, president of the Antioch Legion Auxiliary.

Local donations are still coming, the chairman reported, and indications are that Antioch's quota will be reached and exceeded by July 4.

Antioch Firemen Attend State Fire College at Urbana

State Deputy Fire Marshal James Stearns, Herman Rosing and wife and Ed Simonsen and wife were in attendance at the Illinois fire college held in the electrical engineering building at the University of Illinois at Urbana from Monday to Friday. The Antioch delegation was a part of the 597 delegates who attended.

Victory Day Celebration Is Set for July 16

Soldiers, Sailors, Celebrities to Visit Antioch; Plan Mammoth Parade

Thursday, July 16, has been definitely set as the date for northwestern Lake county's huge victory celebration to be held in Antioch. That announcement was made today by Chairman Otto S. Klass and James F. Stiles, Jr., General Chairman Lake County War Savings staff.

The Antioch celebration will be one of the three such events to be held in Lake county—Waukegan and Barrington events to be held at later dates. With the tentative date, July 16, being set ten days ago, the local committee immediately took steps for the staging of the event on Antioch's Main street and have sought permission from the State Highway Department to have the street closed to traffic from Lake street north to Orchard street.

In telephone conversation today, Stiles said every effort would be made to have the Fort Sheridan band, the Great Lakes Marine band and the Veterans drum and huge corps here to take part in the mile long parade, and that many movie stars and other celebrities would be on hand to furnish entertainment. Several thousand soldiers and sailors will also visit Antioch on that day, and extensive arrangements for their entertainment are being planned.

Chairman Klass has named the following men to assist him in preparing thoroughly for the occasion: George Wagner program chairman; Robert King decorations chairman; H. A. Smith stamp and bond sales chairman; Roman Vos parade chairman; L. R. Van Patten, safety chairman; Cleve Vos, dance chairman; and R. E. Clabaugh, publicity chairman.

Collaborating with the committee to make the day a success are Antioch Fire Department, the local Legion post, the Antioch Lions club and members of all other local organizations, the committee announced today.

The committee will meet tonight to formulate further plans for the day which is expected to be the biggest event ever held in Antioch.

PROTECTION OF INDUSTRY STRESSED AT FIREMAN'S MEET

150 Fire Fighters Attend County Meeting Here Monday

The firemen's part in the protection of industry in war time was the general theme of the June meeting of the Lake County Firemen's association held at St. Ignace's hall here Monday night.

Over 150 firemen from the several departments in the county heard an address by James R. Allen, Fox Lake, technical engineer for the International Harvester company, who is now acting for the Office of Civilian Defense as priorities expert. Allen stressed the importance of all fire departments to give present equipment the best of care in order to maintain it at peak efficiency, the speaker told the firemen.

The buffet luncheon was served by the Antioch department.

Association president, Arthur Meyers of Libertyville, presiding at his first county meeting, presented a past president's badge to Frank Huber, the first county president, and also a badge to Norman Conrad, immediate past president who now is serving as state deputy fire marshal.

Clarence Shullis who has been doing a splendid job as secretary for the county association, again was appointed to that office.

Catholic Youth to Have Steak Dinner Sunday in Waukegan

The Lake County Catholic Youth federation will sponsor a steak dinner to be given on Sunday June 28 at the American Legion home in Waukegan. Baroness Catherine de Hueck, famous Catholic actionist, will be the speaker. The Baroness will tell of her work in Friendship house which she founded in New York's Harlem.

There will be dinner music followed by dancing. Reservations should be given to Miss Mary Dobnikar at 1232 Adams street, North Chicago, or by calling North Chicago 4737.

The Fruits of Hoarding

Hoarding of commodities produces two certain results—high prices, and government-enforced rationing. An excellent example of that is touched on in one of Paul Mallon's recent columns. Writing on the sugar situation, Mr. Mallon says: "Food authorities have counted up sugar stocks and concluded these are sufficient to furnish 99 pounds to everyone in this country this year. The average consumption for eight years from 1932 to 1940, was 103 pounds, so the amount available is only four pounds less than normal."

"But whether you will get your 99 pounds this year, is a question. . . . While stocks are almost adequate, hoarding continues. Rationing is inevitable, solely because of demand and not because of inadequate supply."

In short, those who hoarded sugar, brought the rationing program on themselves and all other consumers. And the hoarders will not even be individually benefited by their abnormal stocks—when you got your sugar, ration cards, tickets were removed to compensate for whatever excess supply you had on hand. Extremely severe criminal penalties are provided for fraudulent declarations.

The best advice any consumer can take is this: "Buy normally—don't purchase in excessive quantities—don't hoard." The retail stores of this country, led by the chain systems, are preaching that doctrine now. It is an essential protection against inflation and shortages of necessities. You can be certain that free competition in manufacturing and merchandising will keep prices at the lowest level—and make possible the widest distribution of goods of all kinds.

Banking Job Well Done

The superb work being done by the banks in these unpredictable days deserves nation-wide attention. No industry has more swiftly or efficiently adapted itself to the unprecedented demands imposed by this war.

The banks have literally placed all their resources at the disposal of defense industries. It has been said on high authority that no needed defense work has been delayed for lack of bank financing.

The banks have done an extremely effective job—and a job which produces them no profit whatsoever—in selling Defense Bonds and Stamps to the public.

The banks have taken on and discharged many new tasks—such as cashing checks and providing bank accounts for troops at cantonments and forts.

The banks have cooperated fully with the Treasury department in the exceedingly intricate work of freezing the financial resources of industries and individuals of enemy nations.

A full list of bank achievements would be a long one. Banking has proved its ability to gear itself to the needs of war no less than to the needs of peace.

Triple Duty

During peacetime more than \$300,000,000 was spent here in America in a single year to develop new products that would make our lives more comfortable. In research laboratories all over the country many thousands of men and women worked at the endless task of raising our standard of living higher and always higher.

Today those great industrial research laboratories have another job. They're working now to protect our freedom and the comfortable way of life that they helped to create. For our armed forces they have already developed airplanes, tanks and guns that are superior in many ways to foreign makes. And they are constantly improving on themselves, constantly making weapons that are better than anything they've made to date.

They're busy, too, devising ways by which they can make our peacetime goods last longer, now that we'll have to do without many new products until the war is over. They've already perfected methods of caring for automobile tires to stretch the wear we get from them. They've developed ways to extend the use that wood, plastics, and many other products give us.

Such facts indicate that our industries today are not only sweating for victory on the firing lines; they're working for it on the home front, too. And they're planning ahead to the post-war period, figuring out new wonder products that can be manufactured then to raise our standard of living higher than anything we've ever known in the past.

After the War, What?

Everybody is going all-out to win the war and nothing will interfere with that effort—the man on the street, the factory worker, the housewife, the farmer, and the business man are showing grim determination to bring this war to a successful termination. But we shouldn't be human if we didn't sometimes speculate on what will follow.

We face a huge task in winning this war and just as huge a task in winning the peace. To win the peace, we must prepare now—even while we are concentrating on winning the war. No one wants to go back to days of depression, of idle plants, idle men and idle money.

American industry, built and maintained by foresight, isn't ignoring this problem. It is tackling it right now, along with the dozens of other problems created by war production itself. It's laying plans for a speedy change-over to increased civilian manufacturing when this emergency is ended.

Industrialists assure us that wonderful new products are in store for the post-war markets. A glass company is preparing to offer prefabricated homes costing about \$3,000 that can be assembled quickly to make cheap housing available; the airplane industry promises new luxury liners, thousands of new air fields for smaller planes, and employment to millions.

Such inventions and changes, forced by the war far sooner than they would have developed naturally, are the mainstay of the widely-accepted opinion that a post-war depression of monumental proportions can be averted.

As Walter B. Weisenburger, executive vice-president of the National Association of Manufacturers has said, "the development during the war production period of superior manufacturing methods applicable to peacetime production embodies the promise that we may attain in the post-war period a scale of living higher than ever before."

TREVOR

Mrs. Champ Parham was a business caller in Antioch Tuesday.

Mrs. Charles Oetting and Priscilla Allen were visitors at the Bruel home at Powers Lake Wednesday.

Mrs. Kenneth Stockton and Louis Oetting were Chicago business callers on Tuesday and Wednesday.

Al Mason has been spending his vacation at Rock Lake.

Miss Elaine Allen returned home with her sister, Mrs. Glenn Pacey, on Friday.

Mrs. Harry Lubeno and Mrs. Floyd Lubeno were Kenosha shoppers Tuesday.

Mr. and Mrs. Fritz Radtke of Green Bay, Wis., spent the week-end with Mr. and Mrs. Hill Hovens.

Mrs. Jessie Allen and Priscilla Allen accompanied Mr. and Mrs. Ted Allen and daughter, Marlene, to Earl Park, Ind. Sunday.

Mrs. Charles Oetting and Priscilla Allen were Burlington visitors Saturday evening.

Mr. and Mrs. Walter Smith were callers at the Charles Oetting home Sunday afternoon.

Mrs. Charles Oetting and Priscilla Allen were in Kenosha on Tuesday.

Mrs. Kenneth Stockton and Louis Oetting returned to Rockford, Ill., after spending the week-end with their parents, Mr. and Mrs. Charles Oetting.

Russell Longman, storekeeper, 2nd class, U. S. N., has received notice to report to ship service June 26.

The rosary was again said at eight o'clock Monday night.

After the solemn Requiem Mass, which was read by Rev. Joseph Savage of Antioch who has assisted Father Finan in his clerical duties throughout the past year and during his illness, the burial procession went to Calvary cemetery at Milwaukee where interment in the family plot took place about 12:30 P. M.

The former classmates of Father Finan at St. Francis seminary acted as Deacon and Sub-Deacon at the Requiem Mass. Archbishop Kiley, of Milwaukee Diocese and fifteen other priests were present. The priest presided at the Mass and the Office of the Dead preceding the Mass.

Father Finan was a priest who edited not only his parishioners but all members of the community by his exemplary life. No physical effort or personal monetary expenditure was too great for the development of his parish.

It was a sad climax to a life of such generous sacrifices that Father Finan was not permitted to see the completion of St. John the Evangelist chapel at Twin Lakes; he had donated over \$150.00 for the building. The First Mass in the chapel was offered for the repose of the soul of Father Finan at seven o'clock on Sunday morning by Rev. Joseph Savage of Antioch.

He was preceded in death by a sister, Ellen, and a brother, William J. Finan, S. J.

The Novotny families spent the week-end at their cottage in Trevor. Mr. and Mrs. Ed Yopp and daughter, Dolly, called on friends in Trevor Sunday.

REV. J. FINAN DIES IN HOSPITAL SATURDAY

Rev. John Joseph Finan, aged 71, pastor of the Holy Name church at Wilmot and the Mission church, St. John the Evangelist, at Twin Lakes, Wis., died Saturday, June 20, at 1:30 P. M., at the Burlington hospital, where he had been a patient for the past eight weeks, with heart trouble and other complications.

Father Finan was born in Milwaukee, Wis., on October 27, 1871, and received his early education in the Milwaukee parochial schools. In 1892 he was graduated from the Milwaukee State Normal and in 1919 he received the Bachelor of Arts degree from Marquette university. He taught for many years in the Milwaukee City school system and was principal of the Third Street school in that city for a number of years. On January 31, 1926, he was ordained to the Holy Priesthood at St. Francis Seminary with the degree of Master of Arts.

The first appointment after the ordination, was to St. Catherine's High School in Racine, Wis., where he was instructor in religion. From Racine he was transferred to West Allis and then as assistant at St. James Catholic Church in Kenosha. From there he went to St. Mary's Catholic church, Janesville, as assistant. In March, 1932, Arch-Bishop Strick, then in charge of the Milwaukee Diocese, appointed him pastor of the Holy Name church in Wilmot.

The remains were brought to the Holy Name church at 7:00 P. M. Sunday evening to lie in state until after the solemn Requiem High Mass at ten o'clock on Tuesday morning. Serving members of the congregation met the cortege at the church premises and formed a guard of honor through which the body was carried into the church. Rev. Joseph Savage, Antioch, led the congregation in the recitation of the rosary. Men of the congregation maintained a vigil Sunday night and again on Monday night. Women of the parish kept the vigil throughout Monday and the early hours of Tues-

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.

Lesson for June 28

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

ALCOHOL FACTS VERSUS DRINKING PROPAGANDA

LESSON TEXT—Proverbs 21:17; 23:32; Isaiah 5:22; 23:32; Joel 1:2, 3; Ephesians 5:18.

GOLDEN TEXT—If sinners entice thee, consent thou not.—Proverbs 1:10.

The facts are on the side of the one who opposes the liquor traffic, and they are so plentiful and so devastating that the industry does not care to face them. Their "best bet" is to use propaganda so skillfully prepared as to disarm the reader. If the propaganda is truthful, it is only because it has to be, and only in that measure.

Our lesson suggests several points in the liquor propaganda, each of which we can prove to be untrue.

I. They Say, "Enjoy Life, That's What We Are Here For" (Prov. 21:17).

Consider the ads of the liquor trade. They carry the beautiful lady, the brilliant young man, the socially correct surroundings, riches, ease, etc. They suggest that even the grandmother in the home approves the use of intoxicants to bring comfort and pleasure to the breadwinner in the home.

What is the truth? Man is not here for pleasure; he is here to serve God. History demonstrates that the nation that lives for pleasure, especially in connection with the use of intoxicants, is doomed to extinction.

II. They Say, "Liquor Is Not Dangerous" (Prov. 23:32).

It is presented as a pleasant and harmless stimulant, when in fact it is known to science, to police and social welfare workers as a narcotic which not only upsets digestion and deranges physical processes but, most vicious of all, "affects personality by its action upon the certain specific brain area. It disturbs, confuses, slows down, and removes the restraints, the checks and balances which make a well-rounded personality. It is the highest functional level of the brain, the personality level, which is first put into eclipse by the action of alcohol" (Carson Taylor).

III. They Say, "Those Who Oppose Liquor Are Fanatics" (Isa. 5:20, 21, 23).

The prophet answers that claim by pointing out that those who favor the use of alcohol are the ones who call evil good and good evil, etc. A little study of liquor propaganda as it appears in the advertising of the industry soon demonstrates that fact. Of late they have been trying to convince us that beer is just a soft drink for the home. Any policeman who has seen a man drunk on beer, and any social or religious worker who has seen the destruction it has wrought in the home and in society, knows that is not true.

IV. They Say, "Strong Men and Leaders Are Drinkers" (Isa. 5:22).

Sadly enough, many of our leading men do indulge in liquor, but if the truth were out, it would be known that they are less capable as leaders and weaker men for their use of it. And who has not seen a leader become a poor derelict by the alcohol route, or a strong man become a jittery mental, moral, and physical wreck in the same way.

V. They Say, "The Pleasure Is Worth Price" (Hosea 4:11; Joel 3:2, 3).

The wicked ones who captured Israel felt they made a good trade when they gave a boy for a harlot, or exchanged a girl for wine. The modern system of making merchandise of boys and girls is not as openly crass as that, but when you figure the cost of alcohol to our land, be sure to add in the girls who have gone into iniquity by the way of tavern hostesses and the boys who have lost everything sacred because of "booze."

Remember too that the beer makers are deliberately using this war to cultivate a taste for beer in millions of young men—their future customers—and we are letting them get away with it, right in the army camps.

VI. They Say, "Drinking and It-llion Go Well Together" (Eph. 5:18).

The contrast of Paul gives that claim the direct brand of falsehood. Being drunk with wine is the exact opposite of spirituality.

Liquor interests know that if church members can be led to believe that wine at dinner, beer as a soft drink—and an occasional social cocktail—is not incompatible with religious life, they will have effectively shut the mouth of the opposition they fear the most—the church.

Let pastors and church boards deal plainly and drastically with drinking church members, and the church will profit spiritually, and again become an effective means of stemming the tide of social iniquity which is engulfing our nation.

Sails Torn Ship In Epic Voyage

Captain Tells of the Heroic
Battle of Marblehead,
Battered Cruiser.

AT AN EASTERN U. S. PORT—Capt. Arthur G. Robinson, captain of the United States cruiser Marblehead, brought half around the world despite gaping wounds from Jap bombs, said that his ship underwent three hours of incessant bombing by at least 37 Japanese planes.

Interviewed in his office aboard the ship amid the din of riveters and workmen as her repairs proceeded, Captain Robinson said the ship had less than a 50-50 chance of getting back during the first eight or ten hours after the attack in the battle of Macassar strait.

The Marblehead was on a mission under orders of a Dutch admiral to intercept a large, well protected Japanese convoy which was en route to Macassar, the captain said.

"En route our force was intercepted by a large fleet of land based enemy planes," he related. "The ships scattered and then it was a question of individual action."

"More than 37 Japanese planes began the attack on us and the attack continued with three hours of incessant bombing. We evaded them pretty well, with the exception of one unfortunate hit."

In Serious Situation.

"After we were hit, the ship was in a very serious situation because we were badly flooded, had two fires, and the main deck was covered with fuel oil and water. We had difficulty moving the wounded. The sick bay was completely demolished and we had to improvise a new one. "Many of the men not detailed pitched in and helped pull the wounded out of the fire. Our steering gear was gone and other hits came while our gear was damaged and we were turning in circles."

"The attack continued while all hands were trying to stop the rush of water. Anti-aircraft batteries were blazing away. I was trying to maneuver the ship as best as I could. My reaction was fatalistic. There we were going in circles and that's all there was to it."

"We steered her with the motors. We'd tickle her with the left propeller and then with the right, and when we had her straight we'd go full speed ahead."

Sailed 13,000 Miles.

The ship, which lost 15 men killed in the bombing, made port in the Netherlands Indies, where temporary repairs were made, then proceeded to Ceylon for additional repairs. Later at South Africa, the ship was made seaworthy for its trip back to the United States. Its trip from the battle scene totaled 13,000 miles.

The skipper repeatedly praised his officers and crew for their "courage, stamina, and resourcefulness" and their "continued cheerfulness." He spent 60 hours continuously on the bridge without sleep during the battle and subsequent fight to reach port.

"Lieut. Comm. Martin J. Drury of Jamestown, R. I., in charge of damage control saved the ship. We had to have a bucket brigade of all hands to supplement the pumps and the men bailed without stopping for 48 hours. We steered 550 miles without a rudder."

Shouts of 'Figone' Now

Mean 'Come and Get It'

FORT F. E. WARREN, WYO.—The cry of "chow" and of "Figone" have the same meaning for Company I, Fifth quartermaster training regiment, quartermaster replacement training center, at Fort Warren. It means it's time to eat.

Private Frank Figone's father owns a restaurant in Berkeley, Calif., and Mr. Figone likes the army so much he ships his son and Company I whole crates of grapefruit, oranges, apples, eggs and recently a roasted turkey.

When the boys cry "Figone," it means a fresh shipment has just arrived from California and everybody eats.

Tire Rationer Hears

Advice His Office Gave

GRUNDY CENTER, IOWA.—Howard Nickerson's most embarrassing moment has to do with tires.

He was going along the highway at 70 miles an hour when a policeman stopped him. The officer told him it wasn't against the law to go 70. It was hard on the tires.

"How would you like to have me report you to the tire rationing board in Grundy county?" he asked Nickerson.

Nickerson said he wouldn't like that at all. Nickerson is chairman of the Grundy county tire rationing board.

This Man Getting All

Set for the Duration

SANTA FE, N. M.—Herbert Gerhart, clerk of the New Mexico supreme court, spent years nurturing a rubber plant he kept in a tub in the court building until the specimen reached a height of 15 feet. His project took on more point recently when he was appointed chairman of the county tire rationing board. "Maybe," mused Gerhart when he was notified of his appointment, "I can tap it for a tire or two."

New Heating Plant for

Antioch School House.

During the past winter when the

local school was most in need of heat, it was brought to the attention of the school board that the present heating plant was not in a very satisfactory condition, and considerable complaints on account of the leakage of gas, were being made. Although it was evident that something had to be done, the old plant was made to do duty until the end of the term. The board then had a representative of the Mueller Furnace Co. look over the plant and estimate the cost of the necessary repairs. The figures were however more than it was deemed wise to expend upon the old plant and it was considered an economy to put in a new steam plant in the beginning, and bids were asked for on the same. These bids were opened at their meeting Wednesday evening and the contract was awarded Williams Bros., for \$2040.00. Of the necessary \$2040, about \$1,400 is already in the treasury.

CHRISTIAN SCIENCE CHURCHES

"Is the Universe, Including Man, Evolved by Atomic Force?" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 21.

The Golden Text was, "The Lord by wisdom hath founded the earth; by understanding hath he established the heavens" (Prov. 3: 19). Among the citations which comprised the Lesson-Sermon was the following from the Bible: "For thus saith the Lord that created the heavens; God himself that formed the earth and made it; he hath established it, he created it not in vain, he formed it to be inhabited: I am the Lord; and there is none else" (Isa. 45: 18).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Spirit, God, has created all in and of Himself. Spirit is the only substance, the invisible and indivisible infinite God. Things spiritual and eternal are substantial. Things material and temporal are insubstantial" (p. 335).

Subject for June 20: "The Capacity of the Soul to Know and Love God." The meeting will be held at the home of Mrs. A. B. Mathison, Highland, Wis., Bristol, Wis.

THOUGHT FOR THE WEEK

Contributed by the Baha'i Group
"If you desire to love God, love thy fellow man. In them you can see the image and likeness of God. If you are eager to serve God, serve mankind. Renounce the self in the Self of God. When the aerial mariner steers his airship skyward, little by little the inharmonious and incongruity of the world of matter are lost, and before his awestruck vision he sees widespread the wonderful panorama of God's creation. Likewise, when the student of the path of Reality has attained to the loftiest summit of divine love, he will not look upon the ugliness and misery of mankind; he will not observe any differences; he will not see racial and patriotic differences; but he will look upon humanity with the glorified vision of a seer and a prophet. Let us all strive that we may attain to this highest pinnacle of ideal and spiritual life."—Abdu'l-Baha.

Piano Students Are Heard in Excellent Recital Tuesday

Piano pupils of Georgia Ray Drury gave excellent performances at the annual recital at the studio in Antioch Tuesday evening. The appreciative audience comprised the parents and friends of young students, and all agreed that music making must be an interesting business if one may judge from the enthusiasm displayed by the students who appeared on the program.

From the youngest children to the older high school students, all played with fine interpretation and musicianship. At the conclusion of the program Mrs. Drury presented Verna Mae Kufalk, June and Jane Hunter with opera books as reward for perfect attendance at the music study group meetings during the year. June Peterson also received a gift for the most complete scrap book on American musicians.

ANTIOCH HOME BUREAU ADDS TWO NEW MEMBERS

Two new members added yesterday at a meeting held at the home of Mrs. Sheridan Burnette increased the membership of the Antioch Home Bureau unit to 32 members. The new members are Mrs. William Bennett and Mrs. Ray Panzer.

The day was the birthday of the hostess and the group gave her a kitchen shower. Mrs. Helen Volk, county home adviser, gave the lesson on eggs and milk in the menu and demonstrated with a tasty omelet. Instruction on sauces and gravies was also given and the minor lesson was on hand-made rugs. Each member brought a rug.

Special refreshments were served in honor of the birthday of the hostess. The next meeting will be held at the home of Mrs. R. S. Winslip at Indian Point, Fox Lake.

drug store and invite all to come in and become better acquainted with it. The store has been completely designed for you—our customers and friends.

At the front of the store, adjacent to the modern cigar and tobacco department is located the toiletry section and other items of particular interest to women. The inventory of toiletries is most complete, both as to variety and price, including the best known products of the perfumers of note.

Continuing toward the back of the store, a modern, completely stocked drug department next occupies our attention. This department was designed to insure maximum customer convenience and service. Here the hundreds of items sold over the drug counter are prominently displayed for easy customer selection.

At the rear of the store is one of the finest prescription departments in any city of this size. It is enclosed completely in glass so that the customer may observe the compounding of the prescription; yet, the pharmacist may work undisturbed with the ingredients and measuring devices, under the best of conditions.

Mr. and Mrs. Borovicka, who will have charge of this department, are of the opinion that the operation of the prescription department is much more than a mere commercial proposition. There is probably no other customer-merchant relationship in the American retail business that involves the degree of intimate personal service which this calls for. Because they steadily recognize this and are prepared to render friendly, courteous service in a sincere manner, they expect to maintain their enviable reputation for neighborliness.

Modern Display
In the center of the store departmentalized fixtures of the latest design, developed and used by the Walgreen Co. in their own stores, display an array of sundry items, including household goods, clocks, electrical needs, sporting goods, etc. These open displays make it possible for customers to examine closely the merchandise before they buy.

Already the people of Antioch have shown a great deal of interest in the construction of the new store. The Reeves Drug Store has received a large volume of favorable comment and praise for the beautiful and modern store from those who have visited it prior to its formal opening.

In commenting upon the store's connection with the Walgreen Co. Mr. Borovicka goes on to say, "Besides the great value of the services which our store will receive as a result of this contract, the value to the people of Antioch, which access to the tremendous number of products and merchandising service brings is beyond any accurate estimate. More than 1300 products covering a wide range in the drug and cosmetic fields are manufactured in the huge Walgreen Co. laboratories in Chicago. It is well known to the trade and also to the public that no finer research for manufacturing control is common in the manufacture of such items. In this manner the public has definite assurance from the greatest name in the drug business that the product offered is fresh, efficient, pure and properly described.

The advantages in prices are also most important. We intend to follow an aggressive merchandising program that will bring Metropolitan center prices to the people of Antioch. We are certain that our connections, combined with the excellent service and lowest values, will bring many more and better values to this community. We wish to call especial attention to our Grand Opening Sale and sincerely invite all to attend it. We know that the opening of this new drug store will be an event of more than ordinary interest to the community."

Living Get Paid
How much, would you estimate, was paid out to policyholders and beneficiaries this year? The stupendous sum of \$2,550,000,000. Of this, 61 cents of every dollar went to living policyholders. It is a noble tribute to American breadwinners that they exercise such self-denial that they are able to invest on an unparalleled scale in insurance to safeguard their dependents.

Card o' Thanks
With deepest gratitude we extend this word of thanks to friends and neighbors for the many acts of sympathy and floral offerings to the boys who were first to the rescue, and to C. K. Anderson and William Cooper families whose hospitality and personal interest was as though it was one of their own; also the untiring efforts of Captain Holbek and members of the rescue squad, coast guard of Waukegan, also the many individuals who helped to recover the body, will never be forgotten.

How to Display Ceiling Prices

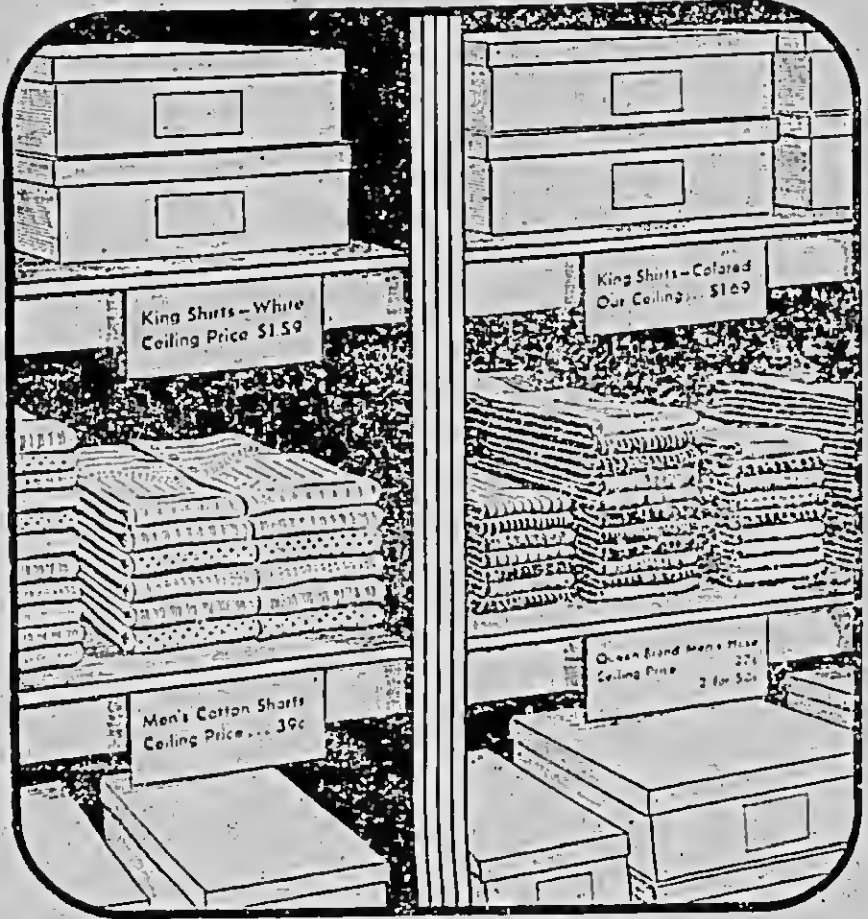

A single poster may show the ceiling prices for a group of related items—such as meat. The list should be printed in letters large enough to be clearly readable from the point of purchase.

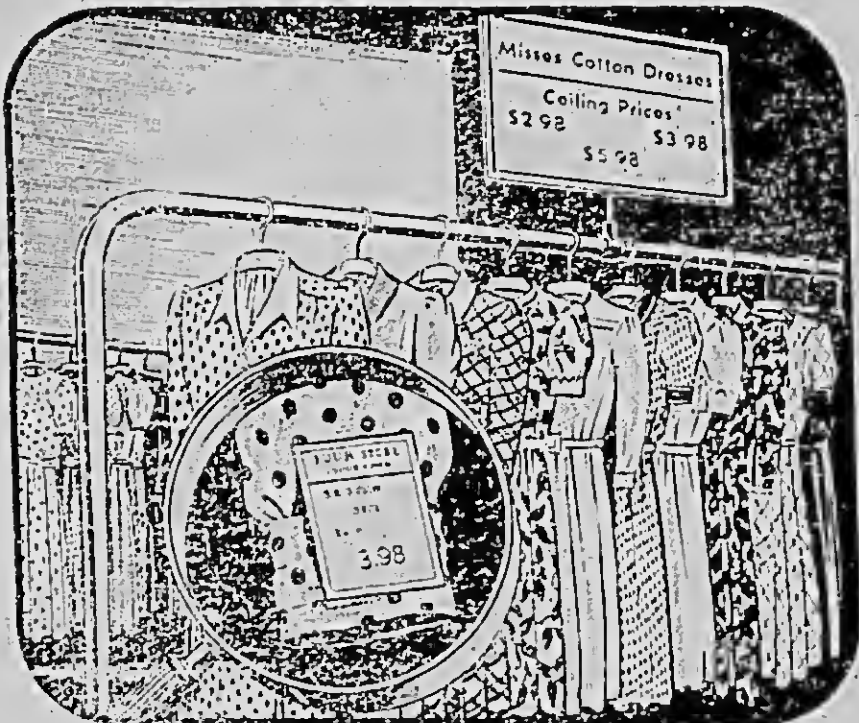

A single poster may show the ceiling prices for a group of related items—such as dentifrices. The list should be located near the place where the merchandise is sold and should be printed in letters large enough to be clearly readable from the point of purchase.

A single poster may show the ceiling prices for a group of related items—such as cigarettes, tobacco and razor blades. The list should be located near the place where the merchandise is sold and should be printed in letters large enough to be clearly readable from the point of purchase.

Ceiling prices may be shown for a group of related items, such as shirts, having the same maximum price and stocked in one place in the store.

Where articles in different price-lines are physically mixed, ceiling prices may be displayed by price-lines if article is marked by asterisk in Appendix B of Regulation. In addition, the selling price must be shown on each individual item. This applies, for example, to dresses, suits, coats, shoes and shirts.

Ceiling price may be shown for a group of identical items on the same shelf—such as canned tomatoes.

Get Permission First

Technically, anyone trapping on the property of another without permission would be trespassing. Land owners should be contacted in order to prevent difficulties which very often might be avoided. If the land owners or members of his family do not engage in trapping permission for you to do so may be granted.

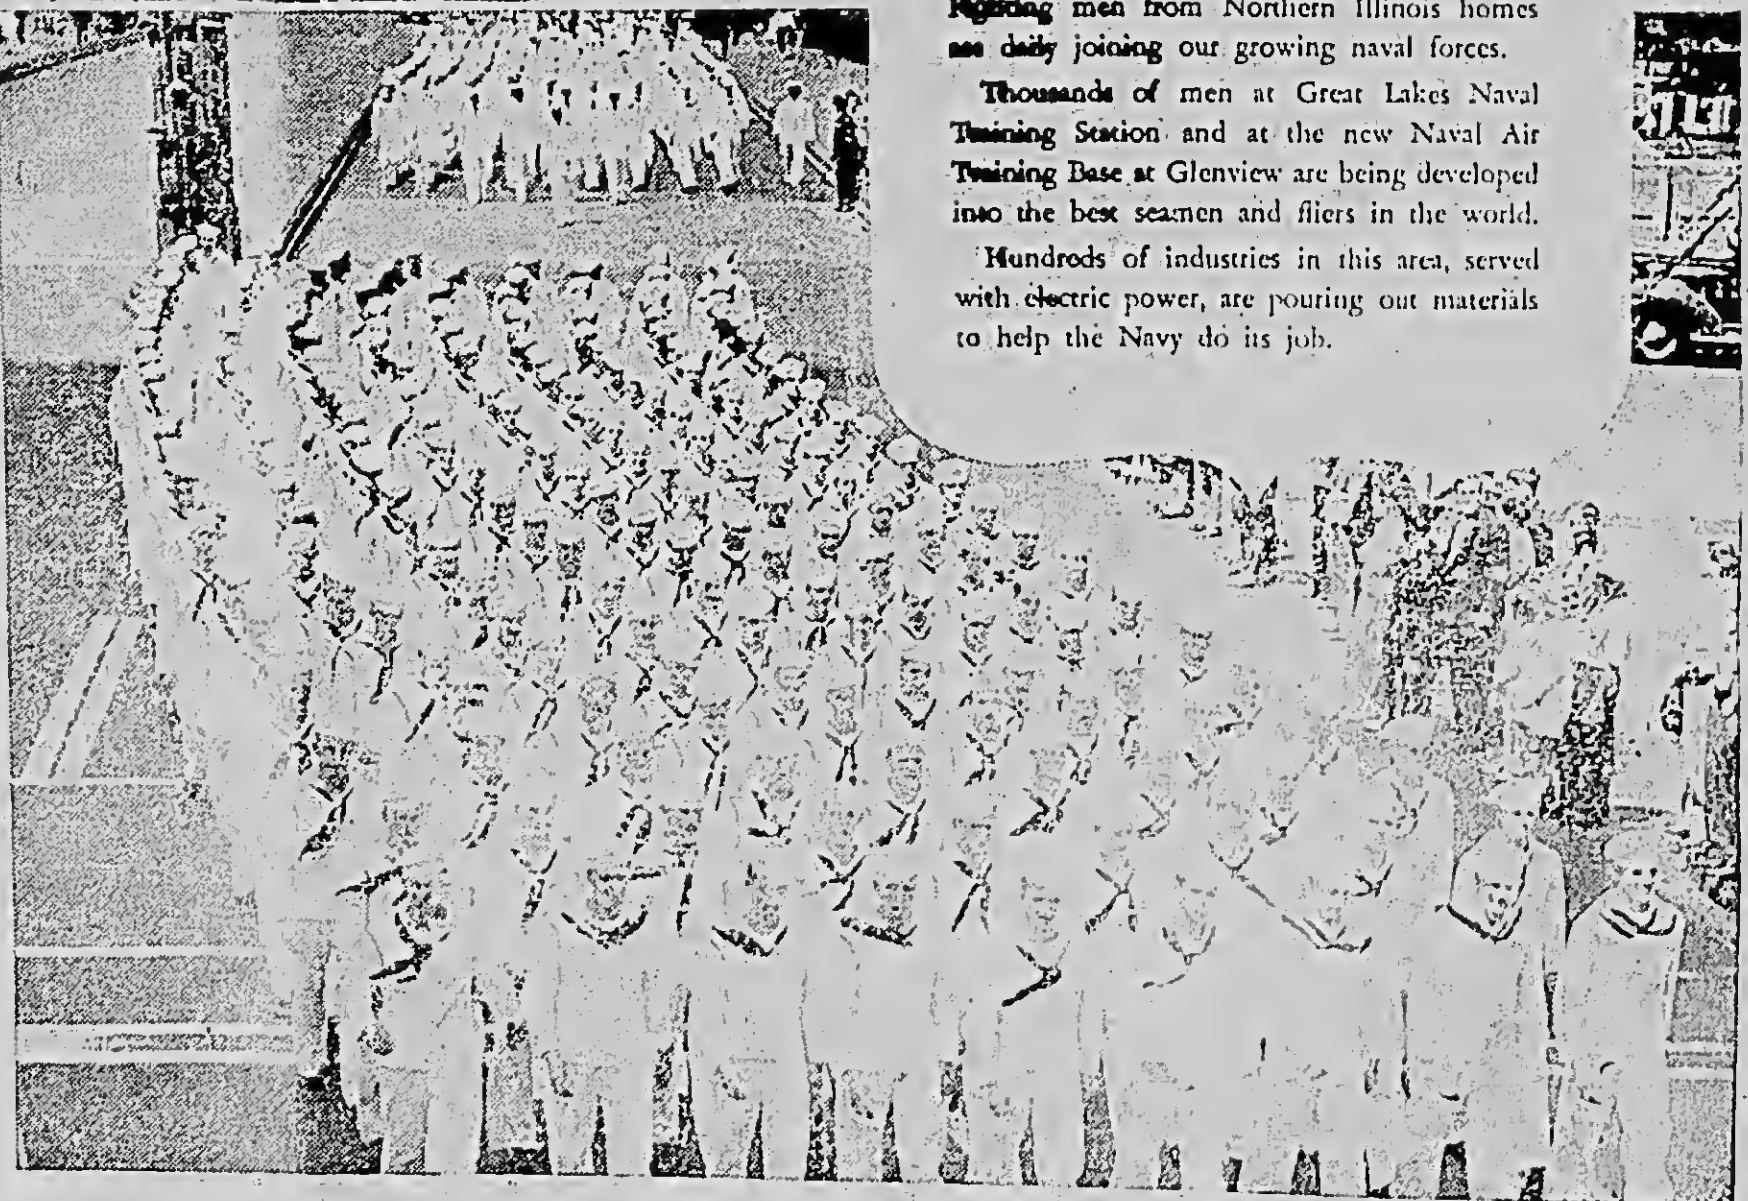

THIS IS Navy Month

Returning men from Northern Illinois homes are daily joining our growing naval forces.

Thousands of men at Great Lakes Naval Training Station and at the new Naval Air Training Base at Glenview are being developed into the best seamen and fliers in the world.

Hundreds of industries in this area, served with electric power, are pouring out materials to help the Navy do its job.

WEEKLY NEWS ANALYSIS

Churchill-Roosevelt Meetings Presage New Action on Second European Front; Mediterranean Naval Battles Indicate Growing Anglo-American Air Strength

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
Released by Western Newspaper Union.

Gone are the days when this unholy trio of American Nazi chiefs paraded around in their Bund uniforms. George Frobose (left) of Milwaukee, Midwest bund head, killed himself under a train en route to a grand jury hearing in New York. Fritz Kuhn (center), former national Bund chief, is in Sing Sing prison, and Dr. Otto Willmet, Chicago leader, is under indictment as a spy.

CHURCHILL: Third Meeting

For the third time within a year Prime Minister Churchill and President Roosevelt met face to face to discuss war problems, when the British statesman arrived unheralded in Washington for a series of conferences. Their first meeting occurred last August aboard ship and resulted in the Atlantic charter. The second was Mr. Churchill's visit to Washington last December after America's entry into the war. It resulted in the declaration by the United Nations.

This third meeting, following closely on Russian Foreign Minister Molotov's historic conferences in Washington recently, promised momentous consequences in the prosecution of the war. Two matters of pressing need—the opening of a second European front and further steps to curb dangerously rising Allied ship losses by Axis submarines—faced the two leaders.

Another leader of the United Nations to reach American shores was Queen Wilhelmina of Holland.

REDS VS. NAZIS

History Repeats?

Balchava, famed site of Tennyson's poem, "The Charge of the Light Brigade," took its place in modern battle headlines as Hitler had romped his massed power against the defenses of Sevastopol's fortifications.

The Crimean fishing port—Balchava—where the legendary charge by the British occurred in 1854, was a fierce point of contention between the Russ and Nazi forces in the battle for control of the western Black sea coast.

Possession of the Sevastopol naval base was vital to the hard-pressed Russians, for it represented a powerful barrier to the approaches of the Caucasus oil fields—a prize which would give the Nazis coveted oil and bulwark their war effort.

To the north in the Ukraine, where the Nazis were attempting to straighten out their long circular line at Kharkov, battles raged doggedly, with Red army communiqués reporting successful counterattacks.

FATS AND OILS:

Housewives Contribute

Frying pans, pots and roasters in millions of American homes yielded up a harvest of fat as the national program to salvage grease and oils from the nation's kitchens got under way.

Fats collected in this household campaign will be used in making glycerine on important element in explosives manufacture. Meat markets everywhere will be collection agencies where housewives will deposit the salvaged fat. Butchers will then turn the fat over to the renderers.

In Chicago where a fat salvage program has been in progress for months past, it was reported that collections averaged 50,000 pounds weekly.

AUSTRALIA:

Japs Still Menace

Lost his countrymen be lulled into a belief that the battle of the Coral sea had removed all danger of a Jap invasion, Prime Minister John Curtin of Australia held aloft a warning finger. Declaring that "Australia can be lost," he declared that the commonwealth fell to Nippon, that Hawaii and the entire North American coast would be open to Japanese attack and west coast cities would be in danger.

MEDITERRANEAN: Axis Gamble Fails

As the swiftly moving battle for world naval supremacy shifted to the Mediterranean, Germany and Italy had made a supreme gamble by throwing every available airplane, submarine, torpedo boat and virtually the entire Italian fleet into an effort to knock out the British forces. The stakes were the strategic convoy routes supplying Axis-occupied Tobruk and Malta.

That the Axis gamble had failed was due in part to the timely intervention of United States army heavy bombers which made their Mediterranean debut by scoring 35 direct bomb hits on two Italian battleships, setting them afire and sending the whole force of 15 Italian warships scurrying home to port.

The epic sea and air fighting centered around two heavily laden British convoys—one leaving Alexandria for Tobruk and the other leaving Gibraltar for Malta. Both carried badly needed supplies for hard-pressed British garrisons.

In two days of death-struggle fighting, the British and Americans beat off Axis attacks, shepherded the convoys safely to their destinations, sank or damaged seven Italian warships, and shot down 33 planes.

LIBYAN FRONT:

Nazi Fox

With the Suez canal as his eventually hoped-for goal, foxy Nazi General Erwin Rommel continued his harassing thrust against the British forces in Libya.

Whether Rommel's dream of a drive to the Suez and a possible link with Japanese forces pushing west would ever materialize depended on how stout was the British resistance. Tobruk, recently reinforced by a huge British convoy, was the immediate target. The tide of battle had surged back and forth, with the Nazi desert force registering a superiority in tanks and anti-tank strength. Hope for the British lay in receiving further supplies and replacements and in a wearing down of Nazi power due to its sustained exertions.

The seriousness of the Libyan situation was evident from the fact that the Axis offensive succeeded in splitting the British army—one force withdrawing to Tobruk to make a stand while the other withdrew to positions near Egypt.

ARMY PAY:

\$50 for Bucks

Uncle Sam prepared to add at least \$20 more per month to the pay check of every enlisted man in the nation's armed forces, when President Roosevelt signed legislation granting the first general military pay increase in 20 years. Non-commissioned officers, "shave-tails" and ensigns shared in the raise.

American soldiers and sailors thus became the highest paid fighting men in the world. The lowest grades—back privates and apprentice seamen—will receive \$50 a month, as against \$30 formerly.

Officers above the rank of second lieutenant or ensign got no pay raises, but were allowed boosts in their subsistence and rental allowances.

One result was hoped for by sponsors of the new legislation—that was to eliminate recruiting competition between the army and navy. It had been charged that the navy had been in better position to obtain recruits since it could offer more attractive ratings. The uniform pay schedule would, it was believed, equalize the appeal of all services.

AIRCRAFT CARRIERS: Lessons Learned

Lessons learned in the battles of the Coral sea, Midway island and the struggle for the Aleutian Islands were applied by the house naval affairs committee when it approved an \$8,500,000,000 expansion bill projecting a "five-ocean navy." For a definite swing to sea airpower was discernible in the bill's provisions calling for immediate construction of 500,000 tons of aircraft carriers, while postponing the construction of five 100,000-ton super-battleships.

This trend was the immediate result of the smashing blows dealt Japanese seapower, in recent weeks by American airplane carriers and their accompanying forces. It was tacit recognition that a revolution in naval tactics has occurred as a result of the battles in the Pacific.

In place of the postponed battleships, the navy will rush construction of more than a score of aircraft carriers with escort vessels and submarines. Scheduled to be completed within a year, they will be distributed among naval forces in all areas in which Axis fleets are operating.

CHINA:

Japs Push On

As Jap armies drove deeper into China and two pincer columns were converging on the strategic 450-mile Chekiang-Kiangsi railroad, the China high command appealed again for an Allied blow that would divert the steadily mounting power of the enemy's invasion.

Discouraging news was made public in the announcement that Shanghai, an important station on the line and capital of Kiangsi province, had fallen.

With all highway sources cut off by the Japanese, China had to depend on giant American cargo planes to deliver supplies for her embattled armies. This trickle would have to be augmented to a full-scale flow of supplies if effective resistance was to continue by Chiang Kai-shek's armies.

PEACE TECHNIQUE

Cooling Off

A clue to post-war peace technique was disclosed by Sumner Welles, undersecretary of state, when he advocated a "cooling off" period after the war before final terms are made.

In effect, the American statesman urged that both the victor and vanquished plan together and prepare

SUMNER WELLES
"Cool Off."

an equitable settlement that would preclude future wars.

Speaking before a United Nations rally, Welles declared co-operation is no less essential in maintaining peace than in winning a war.

"The final terms of peace," he said, "should wait until the immediate tasks of the transition period—after the defeat of the Axis powers—have been completed and final judgments can be coolly and rationally rendered."

VICHY, FRANCE:

'Discontent Grows'

Somber were the words 86-year-old Marshal Petain spoke to the French people on the second anniversary of his nation's military collapse.

Admitting that his recovery program had suffered many setbacks, the aged chief of state declared that "discontent is growing" and warned that the government must undertake sterner measures of punishment to stamp out unrest, public anger and greed.

Petaim made no reference to Pierre Laval in his brief radio speech, although he had declared recently that he and Laval are going along "hand in hand and in complete understanding."

Not only the opposition of the people, but a "slack and sometimes incapable administration" by the government was blamed by the Marshal for present conditions.

MISCELLANY:

VICTORIA: Canadian air force squadrons and Canadian anti-aircraft units have been operating for some days with the United States force in Alaska, it was reported by Lieut. Gen. Kenneth Stuart, chief of the Canadian general staff. This marked the first time in World War II Canadian forces have taken part in any operations with the United States army.

MILLBURN

The third meeting of the Millburn Maidens 4-H club was held at the home of Loretta Drumm June 20.

Louise McCann gave a talk on "First Aid Rules and Supplies for First Aid Kits." Mary Jean McCann gave the story of the National Anthem. Carol Upton gave a demonstration, "Seams and Seam Finishings."

Loretta Drumm gave an interesting talk on her hobby of collecting match boxes and buttons, some of which had come from Japan.

The members practiced putting bandages on each other.

After the meeting the members enjoyed a party in honor of Loretta's sixteenth birthday, with refreshments served by Mrs. Drumm. The next meeting will be held at the home of Alice Jones July 1.

Betty Miller, Reporter.

Eight members were present at the meeting of Hickory unit of Lake County Home Bureau held at the home of Mrs. James Cunningham at Deep Lake Thursday afternoon. Mrs. Volk gave the major lesson on "Use of Eggs and Milk in the Menu" and demonstrated "Egg Omelet Pancake," which she later served. A custard prepared by the hostess was also served. Several hand made rugs were shown in the discussion of the minor lesson on Handmade Rugs. Hickory unit and 4-H members and friends will furnish 100 dozen cookies for U. S. O. cookie jar on July 6. On July 16, Hickory unit will entertain Antioch and Wadsworth units in the Millburn church basement with the lessons, "Abuses and Care of the Feet," and "Chin Lifters," given by Mrs. James Cunningham and Mrs. Gordon Bonner.

Mrs. Walter Fontaine of Evanston and Mrs. Raymond Hauser of Gurnee spent Sunday with their parents, Mr. and Mrs. H. M. Clark.

Mr. Frank Cunningham of Chicago spent several days at the home of his son, J. A. Cunningham.

Donna Kane of Diamond Lake spent several days with her grandparents, Mr. and Mrs. J. S. Denman, the past week.

Mr. and Mrs. Robert Bonner and sons of Kansasville, Wis., were dinner guests at the W. M. Bonner home.

The Complex club enjoyed a "Truth and Consequence" party in the church basement Friday evening with Mr. and Mrs. Holm and Mrs. Latham in charge.

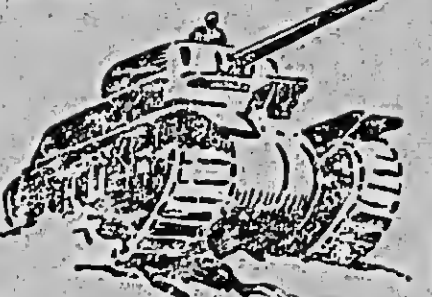

Mrs. Ralph McGuire entertained a group of friends at their out-door fireplace Sunday evening in honor of her husband's birthday anniversary.

John Clark of West Lebanon, Ind., is visiting his son, Harley Clark, for a few weeks.

Harold Bonner who spent a few days with his parents, Mr. and Mrs.

What You Buy With WAR BONDS

These huge 60-ton heavy tanks cost \$120,000, and America's automotive and locomotive plants are turning them out on a never-ending assembly line. Our army uses light tanks, weighing 14 tons, and medium tanks of 28 tons also, but we favor the medium tank over the other two.

These heavy tanks are needed for certain phases of modern warfare, and with their thick armor and heavy-gauge guns they are almost unstoppable. They are considered superior in gun power, in maneuverability and in the power of their huge tractor motors to Axis tanks. Americans everywhere are helping to pay for these monsters of war through their purchase of War Bonds. Invest at least ten percent of your income in War Bonds every pay day.

U. S. Treasury Department

W. M. Bonner, returned Monday to East Lansing, Mich., to attend the summer session of Michigan State college.

Mr. and Mrs. John Edwards of Waukegan were supper guests at the Frank Edwards home Tuesday evening.

Mrs. Ernest Wells left Saturday morning for a ten-day visit with her daughter, Miss Dorothy Wells, in Washington, D. C.

Miss Phyllis McClure of Gurnee spent the week-end with Beryl Bonner.

All Americans Now

A replacement of Chinese selectees stumped the "Fighting Irish" of New York's famous old 69th regiment, but not for long. Roll call sounds like a gathering of the clans again. Toy Kon is now Tony Kennedy, Wing Fat Gee is Fat McGee, Lee Hu Chin has become McHugh, and there's Mike O'Foo, Fat McChung, a McDoon and an O'Wang.

Supreme Test

The supreme test of chopstick extraction in China is considered the extraction of a soft pigeon egg from the soup in which it is served.

Ship Sawn in Two
The 420-foot coal and ore freighter, Adam E. Cornelius, docked at the Manilowoc, Wis., shipbuilding yards for a major operation. In addition to being converted into a self-unloader, the steamer will be sawed in half to have a new 48-foot section inserted. This will give the ship an overall length of 468 feet.

Coldest Town
Coldest town on the British Isles is Braemar, which has an average yearly temperature of 11.3 degrees above zero.

Lions Install New Officers

Club Will Assist Victory Day Program Here July 16

George Wagner was inducted into office as president of the Antioch Lions club at installation ceremonies held Monday night at the Roundup following a duck dinner and a brief business session that finished the year's business.

Others who assume office for the coming year are: 1st vice president, Frank Powles; 2nd vice, Elmer Reimner; 3rd vice, W. I. Scott; secretary, Lloyd Murrie; treasurer, Irving Carey; Lion tamer, Art Trieger; directors, Dr. G. W. Jensen and Robert Mann.

Past President Robert King was commended for having led the club through another successful year, as were the other officers whose term expired.

The club voiced desire to give full co-operation to other committees in the staging of the huge Victory Day celebration to be held here on July 16. Many of the Lions have already been appointed to important committees for the event, including Pres. Wagner, program chairman, and past president King will head the committee on decorations, while H. A. Smith will chair the bond sales committee. Roman Vos is parade chairman.

The \$25 which had been voted for entertainment for this meeting was used to purchase another Defense bond instead.

Members enjoyed a motion picture following the meeting.

Lake County Crop Spoilage Can be Halved

Prevention of waste in food distribution will be a vital factor in the effort of Lake county's 3,396 farm operators and workers to achieve their wartime food production goals, it was indicated today in a survey by a leading distributor of Illinois farm produce.

At least half of the estimated \$320,000 annually lost from spoilage and damage to Illinois fruits and vegetables alone can be prevented by the use of better grading, packing and by better and more direct distribution methods, Earl R. French, marketing director for Atlantic Commission company, A & P produce buying affiliate, declared in the survey's summary. He indicated that further savings could be realized from improved handling of other Illinois farm products.

If Lake county farmers, working with distributors cut by half the average 10 to 12 per cent of fruit and vegetable shipments lost through damage and spoilage, they will have achieved the equivalent of a 5 to 6 per cent increase in production without any extra acreage, seed, fertilizer, equipment or farm labor, French said.

Wheat Marketing Cards Now Available at Lake County Office of AAA

Wheat marketing cards which growers must have to dispose of their 1942 crop are now available at the Lake County AAA office, Graylake, Ill. Chester A. Faulkner, chairman announced.

With the issuance of 1942 marketing cards, cards issued in 1941 become invalid, and elevators have been warned against accepting wheat from farmers who show last year's cards. Farmers do not have to come to the county AAA office to get their marketing cards. The cards will be mailed to them on application.

The rules on wheat marketing cards have not changed much from last year, the AAA chairman said. Producers who seeded within allotments may get cards allowing them to sell or feed their entire wheat crop. Those who overseeded their allotments are subject to a penalty of 5 cents a bushel on wheat they have produced in excess of their allotments.

Notice!

All property owners and tenants must cut all Canada Thistles and noxious weeds before they go to seed.

Urge Merchants to Comply With General Maximum Price Code

Retailers Should Acquaint Themselves with the Regulation

Retail merchants in Antioch who are not using visible posting of their March ceiling prices of cost-of-living merchandise have been advised by John C. Wiegand, regional administrator of the Office of Price Administration, to acquaint themselves immediately with the terms of the General Maximum Price regulation.

The ceiling allowed on retail prices since May 18 has been fixed at the maximum price charged for commodities sold and delivered during the month of March. Visible posting of these prices is required.

The date on which a merchant was expected to post his March ceiling prices on cost-of-living items also was May 18, Wiegand explained. "Certain merchants, honestly misunderstanding the regulation, made a list of their March prices and bound them into a book. This method, however, was not in harmony with the General Maximum Price regulation, because customers had difficulty in finding the price of a given commodity.

"For this reason, merchants were given a period up to June 1 in which to correct the method of posting from book lists to a visible posting of the prices, large enough for any customer to see without difficulty. The extension of time, therefore, was not for the purpose of giving more time to comply with the law, but to give the merchants an opportunity to change their methods of posting to help the customers to determine the March ceiling prices."

A nation-wide program to aid retailers to comply with the Maximum Price Regulation is now under way. OPA representatives will visit merchants to answer any questions on requirements of the regulation and to explain the posting requirements in detail. Approved methods of displaying ceiling prices are shown on page 6.
